## SUMMARY

Experienced Full Stack Developer and Team Lead with a demonstrated history of working in remote environments. Proficient in a range of programming languages including Java, JavaScript, Python, HTML, and CSS. Adept at utilizing various frameworks such as React, Tailwind, and Bootstrap to create dynamic and responsive web applications.

## EXPERIENCE

### Web Developer

Neophyte Consulting Services

June 2023 - July 2023

- Participated in engineering and developing open-source full stack web application using React, Node.js, Express and MongoDB.
- Designed the frontend elements, mapped the routes of the application and edited a Bootstrap-based admin template to suit project needs.
- Regulated version control with branches and reviewed pull requests on GitHub.

## PROJECTS

### Color And Object Detection

August 2023 - January 2024

- Developed a color and object detection application leveraging OpenCV that achieved 95% accuracy in real-time object recognition, reducing processing time by 30%.
- Developed a color detection system using MERN and OpenCV for real-time UAV surveillance, enhancing border security with advanced image processing techniques.

### Netflix Clone

January 2023 - March 2023

- Developed a Netflix clone using the MERN stack, replicating core features like user authentication, media streaming, and a responsive user interface.

## EDUCATION

### Bachelor of Technology - Computer science and Engineering

Maulana Abul Kalam Azad University

## CERTIFICATIONS

### Full-Stack Web Development

INTERNSHALA • 2024

## SKILLS

Languages: HTML, Css, Javascript, Java.

Framework: Tailwind, Bootstrap, React.

Back-End: Node.js, Express.js, API.

Database: MongoDB, Mysql.
