SUMMARY

Web Developer with professional experience in corporate IT environments and hands-on expertise in building responsive, scalable web applications. Proficient in React.js, Node.js, and MongoDB, with strong understanding of RESTful APIs, responsive UI design, and Agile workflows. Adept at collaborating across teams and delivering reliable, user-focused solutions.

EDUCATION

Bachelor of Technology in Computer Science
Maulana Abul Kalam Azad University

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, MongoDB, MySQL, Python

Tools & Practices: Git, GitHub, Vercel, REST APIs, Agile/Scrum, Basic SEO

WORK EXPERIENCE

Technical Operations Associate Oct 2025 – May 2026
Coforge Ltd, Greater Noida

- Worked in a corporate IT environment supporting enterprise-level applications and internal systems.
- Performed application monitoring, data validation, and process execution following defined workflows.
- Coordinated with technical and QA teams to report system issues and ensure operational continuity.
- Used internal dashboards and tools to track application status and operational metrics.
- Followed SOPs, SLAs, and documentation standards in a production environment.

Full Stack Developer Intern Apr 2025 – Sep 2025
Trigear Digital, Noida

- Designed and developed responsive web interfaces using HTML, CSS, JavaScript, and React.
- Improved page load performance by approximately **20%** through optimized components.
- Integrated REST APIs to enable dynamic data rendering and frontend-backend communication.
- Enhanced cross-browser compatibility and mobile responsiveness across multiple devices.
- Collaborated in Agile sprints, participating in stand-ups, reviews, and team discussions.

PROJECTS

Health Tracker Web Application Visit
React.js, Redux, Tailwind CSS, MongoDB, Express

- Developed a real-time dashboard to track diet, workouts, and hydration goals.
- Integrated AI-powered chatbot for personalized health and fitness recommendations.
- Implemented secure JWT-based authentication and protected user data.

Learning Management System (LMS) Visit
React.js, Redux, Tailwind CSS, MongoDB, Express

- Built course enrollment, student dashboards, and learning progress tracking.
- Implemented role-based access control and authentication workflows.
- Optimized UI performance and ensured responsive design across devices.
